(54) Title: PORTABLE LIGHT WEIGHT DESK ENABLING MULTIPLE USER POSITIONS

(57) Abstract: A portable light weight desk enabling multiple user positions. The portable desk is configured as a multiple-member frame structure with interchangeable members that allow different configurations of a portable desk. The configurations include an upright configuration particularly suited for placement and use of electronic device in ergonomic positions for the user while laying down on a floor or in a seated position including seated in a vehicle. The portable desk top can also be arranged to be mounted with wheels for portability.
